

NX-MW35 Single Drum Hydraulic Winches – 90Te Brake

Winch Specification	
Drum Type	Single Drum
Drum Capacity	1400m – Ø36mm (Modified)
Rated Pull	35Te x 10m/min @ 1 st Layer
Drum Break	Hydraulically Operated
Break Hold	90Te @ 1 st Layer Static
Hydraulic Motor Model	HMB270-S3-S04-70
Displacement	4310 cm ³ / rev
Max Cont Pressure	250bar

- Remote Control Operation
- Operational LED indicators
- General Rigging equipment available including Sheeves, Snatch Blocks
- Line load meters available
- Control Container with multi Winch remote control operation
- Various other Winches available

Power Packs

Power Pack Specification	
Model Type	2 x 90kW Electric Driven
Starter Type	Star Delta
Motor Voltage	415v 50Hz, 3Ph, 4P
Motor	ATT WY90, 2 x 90kW, IP55
Pump	EATON PVH141, 2x207L/min Piston
Cooling System	HYDAC OK-EL8 Axial Fan Oil Axial Fan Oil Cooling
Pressure Setting	Approx 210bar
Tank Capacity	2000L
Hydraulic Oil	HD68

- Generators available to hire
- Various other Power Packs available
