

Fleet

- NX-BP40-LH Diesel Deck Pump - 4ft 3in high
- Various splitters
- Various manifolds
- Various hard piped systems

Specifications

- Inlet / outlet diameter DN 5 inch
- 6 inch flexible pipe
- Maximum capacity 400T/hr
- Maximum lift 114ft 9in
- Maximum suction \geq 27ft 10in
- Fuel tank capacity 100L
- Impeller material HT400 powder coated
- Overall dims 7'2" (L) x 4' 3" (W) x 4'3" (H)
- Pump weight 1200kg
- Engine model Cummins DCEC 4BT3.9-P55
- Engine power 40kW
- No. of cylinders - 4 cylinder turbo charged
- Rated speed 1800rpm

Capabilities

- Electronic engine control
- Optional powered jockey wheel for safe final positioning
- Robust design and construction
- Ideal pump solution for maritime and barge operations
